Incidentally, there are photos of the fort in the link above to give you some historical perspective.

But I was trained to not make waves and to keep my opinions to myself and to shut my trap.

I set Fane s first life as a soldier on Fort Morgan peninsula and on a fictional mythical island that if it existed would be somewhere nearby.

Alaina says the orbs are sun spots or something reflected or or or.

What the flash revealed did kind of creep me out.

Anyway, moving on, the other fort Fort Gaines is on the western side on Dauphin Island.

I d done what most women who married young or in a certain time period did, I did not build credit in my name that was not attached to my husband s name.

I haven t been out to the eastern Fort since the storms.

It has narrow treads on one handrail, on the inside.

I m a control freak.
